≡ BRIEFING

Greetings Special Agent,

We have received some troubling news from our sources: the Order of Hades organization is planning to go into hiding for some time after the detention of one of their members, Maksim. According to our informants, if the Order of Hades vanishes, they will disappear like a ghost, and we will not be able to pursue them any further. As a result, we must apprehend their leader as quickly as possible. Following Maksim's detention, a seemingly ordinary file was discovered on his laptop at his residence, and we require your expertise in the digital forensics field to determine whether it is a normal file or not.

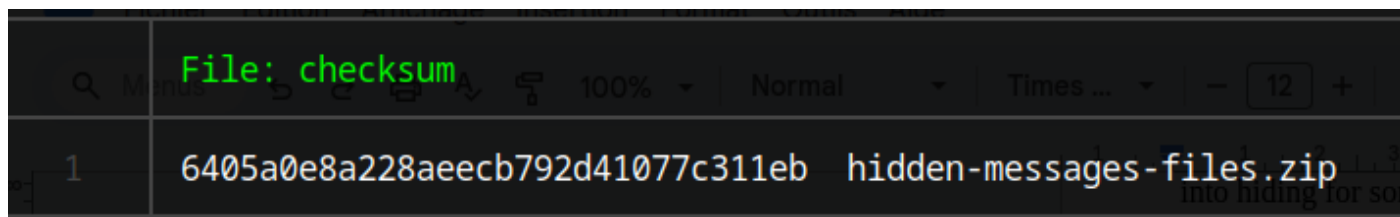

We have attached the file for you to analyze using your skills and to provide us with your findings.

We understand that this mission may seem daunting, but we have faith in your abilities. If you choose to accept this mission, you will be provided with all the necessary resources to complete it. Good luck, Agent.

The responsibility of capturing the leader of the Order of Hades organization rests in your hands.

As always, Special Agent K. The Contract is yours, if you choose to accept.
